

Ordinance

Town of Utica, Winnebago County, State of Wisconsin

No. 2020-103

Emergency Addressing System: Fire Signs

Winnebago County Uniform Addressing System is to provide for a uniform countywide addressing system that will serve the following purposes:

- To aid in the timely and efficient delivery of civil defense, fire protection and emergency services to the citizens of Winnebago County.
- To assist public and private enterprise in the timely and efficient delivery of goods and services to the citizens of the County.

The Town of Utica shall require all structures and uses requiring address numbers to be assigned a number by Winnebago County and shall follow all specifications and mounting of all address numbers per Winnebago County Ordinance:

Structures and uses requiring an address number shall have the number mounted so it is clearly visible from the abutting roadway in the following manner:

- Address numbers shall be posted at the driveway access point.
- Structures located in such a manner that the visibility of the address number is obscured or is not discernible from the abutting roadway, regardless of the structure's distance from the road right-of-way; final determination of the sign visibility shall be within the discretion of the Town of Utica.

The following specifications shall be followed when mounting address numbers at the driveway access point:

- Numbers shall be posted in the Town's right-of-way on either side of the driveway access point.
- The number shall be mounted on a post made of metal or other durable material and shall face the abutting roadway so the sign is easily visible. The sign and post shall be maintained by the property owner in an acceptable manner.
- Although required by the postal service for mail delivery, it shall not be acceptable to use mailboxes as the device for posting address numbers.

Passed on the 14th day of September, 2020 by the Town Board of the Town of Utica

 Chairman – Leonard Schmick

 Attested by: Town Clerk – Jenny Sonnleitner
